19/42 Ripley Road Speed Controls

IP

It was noted by Ian that the imminent resurfacing of the road will inevitably result in people driving faster. Ian needs more volunteers to supplement the Speedwatch team. This will enable him to produce a benchmark of traffic volumes and speeds before and after the resurfacing so Ian can monitor the statistics. Traffic calming: various suggestions were put forward to introduce traffic calming including a chicane or humps. Being a main access route this is not feasible and would also require street lighting.
